

Tucson, Arizona – June 22nd, 2010

With 35 years combined solar experience and over 1,000 solar installations, Allwest Energy Inc. has established their footprint as one of Arizona leading integrators. Allwest Energy is pleased to announce the opening of a new Tucson, Arizona office. This is the 3rd Allwest Energy facility in Arizona. The Tucson facility will primarily focus on sales, engineering, and installation support functions for residential and commercial solar in southern Arizona.

As part of the Tucson community, Allwest Energy will provide local jobs to community members, support the local economy and participate in public service events, clubs and organizations that support renewable energy development.

“Allwest Energy has a proven history of providing value to our customers through innovative products and cost-saving solutions,” states Ron Tovella, CEO, of Allwest Energy. “Allwest Energy is proud to offer Tucson residents the opportunity to go solar with our attractive no money down program.” “We can provide solar energy now, for less than your average electric bill, and lower your monthly expenses.”

Call Allwest Energy today for a free solar consultation and find out how you can switch to solar for no out of pocket expenses and realize immediately lower electricity expenses.

There has never been a better time to go Solar!!
